

APROBAT:

Membru al Directoratului – Inginer Sef
Dan Danulescu

07 / 07 2022

TEMA TEHNICA PENTRU
CONTRACTAREA LUCRARILOR DE PROIECTARE**1. DATE GENERALE**

1.1. Denumirea lucrării: **Inlocuit pompe alimentare cu apa demineralizata degazata cazane recuperatoare caldura instalatii Recuperare sulf fir II si fir III, pozitie montaj 303-P4 B,C**

1.2. Scopul urmarit este acela de a se obtine:

Studiului de fezabilitate al solutiei (Basic Design)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
Studiul detaliat al solutiei (FEED)	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
Proiect tehnic de detaliu pentru executie (DDE)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
Proiect de autorizare / reautorizare	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
Proiect de reparatie	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>

1.3. Instalatia (serviciul) beneficiara: Aria de Productie – Sector 3

1.4. Amplasament: Instalatia DGRS-TG-RSU-TGTU-SAU-RGF-EGF

1.5. Documente si documentatii de referinta

2. NECESITATE SI OPORTUNITATE

2.1 Datorita fiabilitatii reduse in exploatarea pompelor capsulate existente care au iesit din exploatare, este necesara inlocuirea lor cu pompe noi tip BB4 – API-610.

3. PRINCIPALELE CERINTE

Nota: Specificatia a fost elaborata si aprobata.

3.1 Verificarea documentatiei tehnice si a ofertelor primite de la potentialii furnizori, efectuarea analizei comparative cu datele din specificatiile de procurare si

- evaluarea acestora in ceea ce priveste scopul proiectului si emiterea punctului de vedere al proiectantului.
- 3.2 Elaborarea documentatiei de executie si/sau de montaj in conformitate cu normele si legislatia romaneasca si UE in vigoare.
 - 3.3 Se vor elabora memoriile si se vor indica volumele de expertiza necesare a fi realizate in cazul in care sunt implicate constructii (fundatii, constructii metalice, conducte, sisteme de aparare la incendiu), echipamente (statice / dinamice) sau conducte existente. Expertizele trebuiesc a solicitate doar in conformitate cu:
 - Legea nr.10 / 1995 Calitatea in constructii republicata;
 - Ordinul MAI nr. 129/2016 - Aprobarea normelor metodologice privind avizarea si autorizarea de securitate la incendiu si protectie civila;
 - HG nr. 2139 din 30 noiembrie 2004 pentru aprobarea Catalogului privind clasificarea și duratele normale de funcționare a mijloacelor fixe;
 - Regulamente si normele ANRE gaze si electric;
 - 3.4 Elaborarea documentatiei economico-financiara pentru implementarea solutiilor CAPEX-OPEX (devize pe ficare disciplina, devizul general, evaluarea efectelor in urma implmentarii, etc).
 - 3.5 Realizarea verificarilor finale "Controlul de Autor" asupra implementarii proiectului conform documentatiei elaborate si furnizarea documentatiei "Revizie finala" sau "As-Build" inclusiv a celei de executie (DDE), care sa includa toate modificarile sau derogarile emise pe durata realizarii propiectului propriu-zis.
 - 3.6 Relevarea in teren precum si identificarea documentelor existente ce pot fi utilizate;
 - 3.7 Va indica necesitatea si cantiatile necesar a fi dezizolate de pe conducte si echipamente, cantitatea de schele temporare pentru efectuarea releveelor si/sau a expertizelor.
 - 3.8 Trebuie sa furnizeze raport privind relevarea in teren si evaluarea documentelor puse la dispozitie de beneficiar.
 - 3.9 Va elabora si furniza caiete de sarcini si cerintele necesare pentru realizarea studiilor si expertizele necesare implementarii solutiei.
 - 3.10 Va elabora si prezenta studiile TOPO si GEO pentru amplasamentul identificat, in cazul in care acestea sunt necesare pentru obtinerea Autorizatiei de construire;

4. DESCRIEREA SOLUTIEI PROPUSE

Intocmire specificatie tehnica de procurare pompa centrifuga si proiect de CM.

4.2. Descrierea solutiei propuse pe categorii de lucrari si a documentatiei initiale pusa la dispozitie pentru dezvoltare proiect:

Nr. crt.	Categoriile de lucrari	Descriere sumara	Inclus in scop	Anexa	Observatii
1	Tehnologii				

1.1.	Scheme de principiu	Se va monta pe pozitia existenta in instalatie.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>	Anexa 1	<i>Plan amplasare</i>
1.2.	PFD, Bilant material si termic	PFD.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>	Anexa 2	<i>Existent</i>
1.3.	P&ID		DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>	Anexa 3	<i>Existent</i>
1.4.	Diagrama Cauza-Efect	Se va furniza la solicitarea proiectantului.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
1.5.	Studiu HAZOP	Nu este disponibil, este inclus in scop.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
1.6.	Manual de operare cu instructiunile pe faze	Se va furniza la solicitarea proiectantului.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
1.7.	Caracterizarea fluxurilor tehnologice – calitate produse	Conform specificatie pompe PLK	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>	Anexa A	<i>Este disponibila</i>
2	Utilaje				
2.1.	Existente / Refolosite din existent		DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>		
2.2.	Echipeamente noi	Inlocuire pompe existente cu pompe noi.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
2.3.	Specificatii procurare	Intocmire specificatie procurare pompa noua.	DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>	Anexa 4 Anexa 5	
2.4.	Analiza tehnica a ofertelor de tehnologii sau echipamente primite de la potentialii furnizori	Vor fi puse la dispozitie ofertele tehnice primite de la furnizorii inscrisi	Avizari oferte DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
3	Montaj utilaj si leg. conducte	Se vor furniza la solicitarea proiectantului izometriile aferente unde se vor executa.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
4	Constructii beton, edilitare si alte facilitati	Fundatie/postament.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
5	Constructii metalice	Se va furniza la solicitarea proiectantului.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
6	Instalatii apa-canal	Instalatie de racire corp pompa dupa caz.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
7	Instalatii electrice	Adaptare alimentare locala cat si in statia electrica a noii pompe.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
		Se marcheaza corepunzator in dreptul fiecarei categorii:			
		inalta tensiune > 0,6 kV	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>	
		inalta tensiune > 0,4 kV	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>	
		joasa tensiune < 0,4 kV	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>	
		joasa tensiune < 24 V	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>	
		iluminat 220 V	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>	

		UPS	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>	
		Convertizoare frecventa	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>	
		Tablouri comanda forta	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>	
		Statii TRAFU	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>	
		Alte auxiliare, prize impamantare, etc	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>	
8	Instalatii AMC	Se va furniza la solicitarea proiectantului	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
9	Configurare hardware si software DCS-ESD	Conform proiect	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
10	Analizoare on-line, detectoare gaze	-	DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>		
11	Sisteme, retele, instalatii si dotari PSI	-	DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>		
10	Utilitati (aer, azot, apa etc)	Se va asigura circuit apa racire corp pompa.	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
11	Instalatii de incalzire si/sau insotitori	-	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		
12	Instalatii de ventilatie si/sau climatizare	-	DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>		
13	Mecanizare ex: grinda monorail	-	DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>		
14	Memorii tehnice necesare obtinerii autorizatiilor, avizelor si/sau expertizelor	-	DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>		
15	Alte facilitati	1.Montarea senzorilor de vibratii si temperatura lagare pompa si lagare motor. 2.Montare traductor presiune pe circuit apa racire corp pompa cu indicatie in DCS. 3. Montaj presiune diferentia pe filtrul din aspiratia pompelor	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>		

4.3. Alte cerinte sau dotari solicitate: Nu este cazul.

5. DOCUMENTATIA CARE TREBUIE LIVRATA

5.1. Tipul, calitatea si cantitatea documentatie indicata mai jos reprezinta continutul minim al pachetului care se solicita a fi livrat, functie de particularitatile lucrarii pot fi adaugate si alte tipuri de documente care sunt necesare ideplinirii scopului, a tuturor cerintelor legale si de securitate a lucrarilor.

5.2. Furnizorul are obligatia sa indice in continutul ofertei tehnice documentatia suplimentara necesara a fi elaborata si livrata in pachetul de documentatie a proiectului.

5.3. Furnizorul trebuie sa indice in continutul ofertei tehnice cantitatea si calitatea setului de documentatie si/sau pachetul minim de informatii preliminare ce vor trebui a fi furnizate de catre Beneficiar, informatii provenind de la licentieri, autorii de Basic Design-uri, furnizorii de echipamente sau a altor entitat si care ii sunt necesare pentru elaborarea scopului in termen, conform Graficului de executie asumat.

5.4. Furnizorul are obligatia sa prezinte in cadrul ofertei tehnice Graficul de realizare si de livrare a documentatiei tehnice de proiectare tinand cont de etapele de dezvoltare a proiectului in detaliu si cu conditionarile aferente conform 5.3.

Pachet documentatie livrabila in cadrul proiectului:

1. Tehnologie			
1.1	Memoriu tehnic	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
1.2	Scheme de principiu	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
1.3	PFD, Bilant material si termic	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
1.4	P&ID	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
1.5	Diagrama Cauza Efect	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
1.6	Studiu HAZOP	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
1.7	Manual de operare cu instructiuni pe faze	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
1.8	Aviz verificare MEC	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2. Conducte			
2.1	Memoriu tehnic	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.2	Lista conductelor la care se intervine	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.3	Lista conductelor noi	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.4	Identificarea, elaborarea si alocarea claselor de conducte, atat pentru cele noi cat si pentru cele existente	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.5	Lista punctelor Tie-In (conexiune vechi – nou)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.6	Calcularea si dimensionarea conform SR EN13480	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.7	Elaborarea izometriilor model 2D & 3D	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.8	Lista necesar materiale, inclusiv suporti, stalpi sau estacade cu precizie de $\pm 10\%$	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.9	Documentatie necesara efectuarii expertizelor	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.10	Proiect de reparatii conducte semnat si stampilat RADTP si MEC	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.11	Avizele si autorizatiile autoritatilor romane (CNCIR, ANRE, etc)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
2.12	Caiet de sarcini pentru constructor	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3. Echipamente si utilaje			
3.1	Memoriu tehnic incluzind standardele de fabricatie, tinand cont de solicitarile explicite ale beneficiarului	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3.2	Program control de calitate si grafic urmarire pe etape fabricatie	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
3.3	Lista echipamentelor cu indicarea tag-name conform P&ID, caracteristicile principale de design si operare	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3.4	Specificatii de procurare – Fise Tehnice	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3.5	Documentatia si desenele de executie (DDE)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3.6	Conditii si cerinte privind protectia impotriva corozivunii, eroziunii si pentru securitatea personalului	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>

3.7	Instructiuni privind transportul, conservarea, montajul, pregatire si punerea in functiune, scoaterea din operare si pregatirea echipamentului pentru activitati de inspectii si mentenanta	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3.8	Lista cu necesarul materiale pentru PIF si piesele de schimb pentru 2 ani exploatare	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3.9	Proiectul de executie / reparatie semnat si stampilat RADTP si MEC	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3.10	Memorii si documentatia necesara efectuarii expertizelor echipamentelor existente	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3.11	Avizele si autorizatiile autoritatilor romane (CNCIR, etc) certificari PED si NoBo – daca intra in sarcina proiectantului	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3.12	Avizarea ofertelor tehnice (2 revizii) pentru calificarea la licitatie	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
3.13	Avizarea documentatiei de executie (daca nu este in sarcina producatorului de echipamente)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
4. Instrumentatie – AMC, PLC, DCS si ESD			
4.1	Memorii tehnic	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
4.2	Lista echipamentelor cu indicarea tag-name conform P&ID, domeniile, clasa precizie, tip, etc	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
4.3	Specificatiile de procurare si lista potentialilor producatori	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
4.4	Lista cu necesarul materiale pentru PIF si piesele de schimb pentru 2 ani exploatare	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
4.5	Jurnal de cabluri	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
4.6	Specificatii de cabluri	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
4.7	Trasee de cabluri	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
4.8	Scheme conexiuni	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
4.9	Lista I/O	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
4.10	Secificatii UPS (si hook-up)	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
4.11	Lista cu necesar materiale cu precizie de $\pm 10\%$	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5. Electrice			
5.1	Memorii tehnic	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.2	Lista echipamentelor cu indicarea tag-name conform P&ID si a principalelor caracteristici tehnice	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.3	Specificatiile de procurare si lista potentialilor producatori	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.4	Lista cu necesarul materiale pentru PIF si piesele de schimb pentru 2 ani exploatare	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.5	Jurnal de cabluri	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.6	Specificatii de cabluri	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.7	Trasee de cabluri	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.8	Scheme conexiuni	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.9	Schema instalatiei de impamantare	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.10	Lista I/O	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.11	Specificatii UPS (si hook-up) sistem automentinere in caz de fluctuatie de tensiune	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.12	Lista cu necesar materiale cu precizie de $\pm 10\%$	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
5.13	Avizele si autorizatiile ANRE	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>

6. Constructii metalice, beton si amenajarea teritoriului			
6.1	Memoriu tehnic incluzind standardele de fabricatie	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
6.2	Program control de calitate si graficul de urmarire pe etape executie	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
6.3	Planuri de amplasare fundatii, camine si trasee conducte subterane, drumuri	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
6.4	Documentatia si desenele de executie (DDE)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
6.5	Lista cu necesar materiale cu precizie de $\pm 10\%$	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
6.6	Aviz verificare MDRAP A1, A2 , B1, B11, C	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
6.7	Punctul de vedere al proiectantului privind executia lucrarii (conf. HG nr. 273/1994)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
6.8	Asigura prezenta si prezinta punct de vedere la receptia de terminare a lucrarilor (conf. Legii nr. 10/1995 republicata)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
6.9	Asigura prezenta si prezinta punct de vedere la receptia finala a lucrarilor (conf. Legii nr. 10/1995 republicata)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
6.10	Intocmirea documentatiei DTAC sau DTAD, dupa caz	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
7. Documentatie privind securitatea industriala de SSM-SU			
7.1	Studiul de identificare a zonelor cu pericol de explozie	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
7.2	Plan amplasare cu indicarea claselor zonelor cu pericol de explozie (zonare Ex)	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
7.3	Scenariul si planul de interventie in caz de incendiu	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
7.4	Factori de risc si masuri de tehnica securitatii muncii	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
8. Documentatie privind factorii de mediu si Ecologia			
8.1	Indicarea solutiilor BAT pentru solutia tehnica aleasa	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
8.2	Studiul de impact asupra indicatorilor cuprinsi in AIM	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
8.3	Enumerarea (eventualelor) tipurilor de deseuri si cantitatea anuala rezultata in urma implementarii solutiei	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
8.4	Noxe generate (daca e cazul), estimarea cantitatii anuale si limitele impuse	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
8.5	Masuri de eliminare sau pentru compensarea impactului negativ asupra climatului de munca si/sau mediului inconjurator.	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
9. Documentatie economica			
9.1	Devize de cheltuieli defalcat pentru fiecare disciplina inclusiv pentru lucrari de expertiza si constructii montaj	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
9.2	Devizul General (CAPEX)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
9.3	Estimare costuri aferente activitatii de pregatire si pentru punere in functiune	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
9.4	Costuri de operare (OPEX)	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
9.5	Efecte / Venituri realizate in urma implementarii proiectului	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
10. Avize si Autorizatii			
10.1	De constructie	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
10.2	De demolare	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
10.3	Urbanism	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
10.4	De Mediu	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
10.5	Insemex	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
10.6	ISCIR	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>

10.7	CNCIR	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
10.8	CNCAN	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
10.9	ISU	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
10.10	Altele (se vor enumera dupa caz)	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
11. Altele cerinte			
11.1	Lucrari civile - Punctul de vedere al proiectantului privind executia lucrarii (conf. HG nr. 273/1994)	DA <input type="checkbox"/>	NU <input checked="" type="checkbox"/>
11.2	Asigura prezenta si prezinta punct de vedere la receptia de terminare a lucrarilor (conf. Legii nr. 10/1995 republicata)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>
11.3	Asigura prezenta si prezinta punct de vedere la receptia finala a lucrarilor – dupa expirarea perioadei de garantie (conf. Legii nr. 10/1995 republicata)	DA <input checked="" type="checkbox"/>	NU <input type="checkbox"/>

6. SURSA DE FINANTARE: Program Investitional - Reutilare Tehnica 2022 (poz.97) ✓

7. RESPONSABIL PROIECT DIN PARTEA BENEFICIARULUI:

- Numele si prenumele Mitache Iulian/Calin Marin
- Functia: Ing Tehnolog Sector
- Telefon: (int)3750_____
- e-mail: imitache@petrotel.lukoil.com

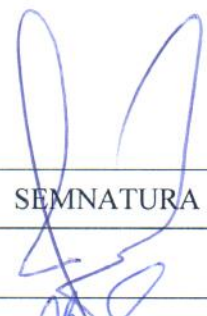

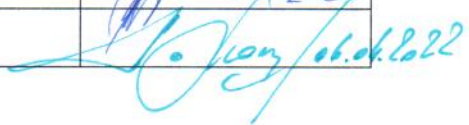

8. TERMEN EXECUTIE

8.1. Termenele de predare pe faze de executie (conform RUT 2022)

8.2. Termenul maxim de livrare al pachetului complet documentatie conform scopului stabilit prin prezenta tema este: **01.06.2022**

8.3. Termenul maxim de livrare a pachetului complet de documentatie dupa efectuarea controlului de autor in varianta/revizia finala As-Built, este de maxim 10 zile lucratoare dupa PIF sau eliminarea oricaror observatii.

9. LISTA AVIZARE:

FUNCTIA	NUMELE SI PRENUMELE	SEMNATURA
SEF SERVICIU CONSTRUCTII CAPITALE	Y. I. EROGOV	
TEHNOLOG SEF	CATALIN NICULESCU	
ING. SEF ADJ. PRODUCTIE	PARNAU DANIEL	
ING. SEF MECANIC	DENYS MAKUSHEV	

ING. SEF METROLOG	ION ENE	
ING.SEF ENERGETICIAN	MAXIM GRECOV	
SEF ARIE	ADRIAN NEGOITA	
SEF SIE	ALEXANDRU VALENTIN	
SEF SERVICIU SSM-SU	FLORENTIN DINU	
SEF SERVICIU PROTECTIA MEDIULUI	GHEORGHE DUCA	

Tema tehnica intocmita de:

- Numele si prenumele Mitache Iulian / Calin Marin
- Functia: Inginer Tehnolog Sector 3
- Telefon: 3750
- e-mail: imitache@petrotel.lukoil.com

Date initiale pentru partea Tehnologica

1.2. Proiect: Inlocuit pompe alimentare cu apa demineralizata degazata cazane recuperatoare caldura instalatii Recuperare sulf fir II si fir III, pozitie montaj 303-P4 B,C

1.	Utilajele care vor fi implicate in proiect	Pompe 303-P4B si 303-P4C Conducta aspiratie Conducta refulare Conducta apa racire pompa
2.	Parametrii de lucru ai utilajelor	Fluid de lucru – Apa demineralizata degazata Temperatura fluid (Tf): 90-110°C Presiune aspiratie (Pa): 0.5barg Presiune refulare (Pr): 40 barg Debit (Q) : 50 m ³ /h
3.	Inlocuirea utilajelor	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>
4.	Utilajele care necesita inlocuire	303-P4B, 303-P4C
5.	Se vor modifica parametrii de lucru ai utilajelor	DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>
6.	Parametrii de lucru ai utilajelor noi	Conform specificatie PLK anexata
7.	Utilaje suplimentare/noi	DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>
8.	Parametrii de lucru ai utilajelor suplimentare/noi	-
9.	Echipeamente AMC pe utilajele existente	Senzori prezenta lichid in aspiratia pompei; Senzori deplasare axiala pompa. Sistem racire lagare pompa cu fluidul de lucru; Manometru pe aspiratia si refularea pompei Ampermetru local + transmis in DCS Apa racire pompa (Apa recirculate sau demineralizata)
10.	Echipeamente AMC pe utilajele noi	Senzori vibratii pompa si motor electric Masurare temperatura lagare/pompa/ motor electric Masurare amperaj motor electric local si la distanta Senzori masurare temperatura infasurari motor electric
11.	Echipeamente AMC noi pe utilajele existente	NU
12.	Racorduri noi pentru echipamente AMC	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>
13.	Parametrii de blocare si alarmare pentru fiecare utilaj in parte	DA <input checked="" type="checkbox"/> NU <input type="checkbox"/>
14.	Caracteristicile sistemelor de siguranta existente.	
15.	Necesitatea calculului componentelor sau amenajarilor interioare ale utilajului	DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>
16.	Necesitatea inlocuirii componentelor interioare	DA <input type="checkbox"/> NU <input checked="" type="checkbox"/>

	existente	
17.	Utilajele pentru care este necesara refacerea calculului si inlocuirea componentelor interioare.	<i>Nu e cazul</i>
18.	Locul amplasarii utilajelor suplimentare/noi	Pozitie actuala a pompelor 303-P4B/C

Legaturi Conducute

1.	Necesitatea montajului conductelor noi	
2.	Locul conexiunilor conductelor noi	<i>Pompe 303-P4B/C, conducte aspiratie si refulare.</i>
3.	Parametrii de lucru ai conductelor existente care fac interconexiune cu cele noi	DA sunt descrisi la pct.4 de la datele tehnologice.
4.	Parametrii de lucru ai conductei noi	Conform proiect
5.	Necesitatea inlocuirii conductelor existente.	Conform proiect
6.	Specificatiile conductelor care se inlocuiesc	Conform proiect
7.	Limitele conexiunii conductelor	Robineti izolare conducte aspiratie si refulare pompa.
8.	Amplasarea conductelor	Conform proiect
9.	Traseul conductei	Conform proiect
10.	Existenta spatiului liber pe estacada	Nu este cazul
11.	Necesitatea constructiei estacadelor noi	Nu este cazul

Lista documentatiei necesare la elaborarea partii de Tehnologie		
1.	Desenele ale utilajelor existente	DA – Izometrii Conducte aspiratie refulare pompa
2.	Cartile tehnice ale utilajelor existente	DA - Pompa
3.	Plan amplasare a utilajelor	DA
4.	Plan zonare.	DA

**Additional technical requirements and list of spare parts for pumps
(mandatory, not optional)**

Pump type NON API

Requirement for motor bearing body:

threaded holes for mounting vibration and temperature sensors
automatic hubs for motor bearings

Requirement for pumps:

seals type LabTecta™ or Bearing Gard™ or equivalent for body bearing pumps

Start-up and 2-year spare parts for 2 pumps

2 x set of gaskets
4 x mech. seal repair kit
seals type LabTecta™ or Bearing Gard™ or equivalent – 4 pcs

Other requirements:

Mechanical seals: Anod , Burgman
Coupling type: Metastream
No water cooling for body bearing pumps .
Axial displacement transducer

3.	MOTOR VENDOR INFORMATION	5

DRMU-1377-02.02.22

1. PROJECT REQUIREMENTS

Item	Description	Technical characteristics
A	GENERALITIES	
A.1.	Motor Tag	303-NMP-4 A/B
A.2.	Driven equipment tag	303-NP-4 A/B
A.3.	Driven equipment type	BB4 centrifugal pump
A.4.	Driven equipment description	Boiler Feed Water Pump
A.5.	Quantity (pcs.)	3
A.6.	Estimated shaft power [kW]	63
A.7.	kW rating	Should be 110% of maximum kW requirement of the pump considering to drive 120 % minimum of the duty point flow
A.8.	Standard and codes	See general specification
A.9.	General specification	Doc.nr.: 1267PJ-UE506-000-001
A.10.	Ambient temperature (minimum / maximum)	-28°C + +41°C
A.11.	Relative air humidity (coldest / hottest month)	90% + 66%
A.12.	Indoor / outdoor / under roof installation	Outdoor
A.13.	Climate / others environment conditions	Temperate
A.14.	Altitude	Up to 1000 meters
B	CONSTRUCTIONS	
B.1.	Mechanical protection (IP)	IP 66
B.2.	Hazardous area classification	Zone 1
B.3.	Hazardous temperature classification	IIC
B.4.	Gas group classification	T3
B.5.	Ex type of protection	EEx de ("d" – motor enclosure, "e" – motor terminal box)
B.6.	Connection diagram	Star-690V; Delta-400V
B.7.	Motor type	Asynchronous squirrel cage
B.8.	Duty type (as per IEC 60034-1)	S1 (continuous)
B.9.	Insulation class / Temperature rise limit	F / class B
B.10.	Cooling method	Aer
B.11.	Efficiency class	IE3
B.12.	Starting method	SOFT START
B.13.	VSD stand-alone panel (yes/no)	N/A
B.14.	Rotation direction	Bidirectional

Construction Sulphur Recovery Unit 3

Item	Description	Technical characteristics
B.15.	Type of mounting (horizontal/vertical)	Horizontal
B.16.	Painting color	Manufacturer proposal
B.17.	Automatic lubrication system	YES
B.18.	Sound pressure level (1m)	82
B.19.	Motor manufacturer	Siemens or ABB
B.20.	VSD manufacturer	N/A
C	SUPPLY NETWORK	
C.1.	Voltage	400V (+10/-15%)
C.2.	Frequency	50Hz ± 2%
C.3.	Neutral system (TN-S/TN-C/TT/IT)	TN-CS
D	CONNECTION CABLE DATA	
D.1.	Power cable (type / section / outside diameter / armor)	CYEABY-F 3x120+70
D.2.	Space heaters (section / outside diameter / armor)	CYABY-F 3x2,5
D.3.	Winding temperature sensor's cables (section / outside diameter / armor)	CYABY-F 3x1,5
D.4.	Cable glands	Yes (double sealed Ex e cable glands for armored cables to be provided for all cable entries)
D.5.	Cable glands material and thread	Brass nickel plated; metric thread
E	AUXILIARIES	
E.1.	Anticondensation heater (yes/no)	Yes, supplied at 230Va.c. with separate motor terminal box
E.2.	Windings thermoelements (yes/no)	Yes, PTC type
E.3.	Bearings thermoelements (yes/no)	Yes
E.4.	Bearings vibration sensors (yes/no)	N/A
E.5.	Bearings oil type	

DRMU-1377-02.02.22

2. DRIVEN EQUIPMENT DATA (BY DRIVEN EQUIPMENT VENDOR)

Item	Description	Technical characteristics
1	Manufacturer's name	
2	Rated / Maximum required power (kW)	
3	Rated speed (rpm)	
4	Torque / speed curve drawing no.	
5	Full load torque (Nm)	
6	Starting torque (% of FLT)	
7	Coupling system (belt/direct)	
8	Inertia moment GD^2 (kgm ²)	

3. MOTOR VENDOR INFORMATION

Item	Description	Technical characteristics
1	Manufacturer's name	
2	Rated output (kW)	
3	Voltage (V)/phases	
4	Synchronous / full load speed (rpm)	
5	Frame size	
6	Full/no load current (A)	
7	Starting current (% of FLT)	
8	Efficiency @ 100/75/50% load	
9	Power factor @ 100/75/50% load	
10	Ramp-up time I_E (s)	
11	Cold/hot allowed starts per hour	
12	Torque/speed curve drawing no.	
13	Full load torque (Nm)	
14	Starting torque (% of FLT)	
15	Starting time @80% load	
16	Motor inertia moment GD^2 (kgm ²)	
17	Insulation class/Temperature rise limit	
18	Explosion proof protection type	
19	Explosion proof certifying authority	
20	Climatic protection	

Construction Sulphur Recovery Unit 3

Item	Description	Technical characteristics
21	Mechanical protection	
22	Rotor withdrawal space (m)	
23	Weight (kg)	
24	Noise level	
25	Bearings DE/NDE	
26	Lubrication type	
27	Greasing period	
28	Thermoelements type	
29	Anticondensation heaters voltage/power (V/W)	

DRMU-1377-02.02.22

ANEXA 6
Grafic de predare documentatie pe faze executie

Nr. Crt.	Documentatie elaborata	Termen predare
1.	Memoriu tehnic si specificatiile de procurare echipamente noi	4 saptamani de lansarea comenzii ferma / contract
2.	Specificatii procurare echipamente noi (statice, dinamice, electric, AMC, DCS)	4 saptamani de lansarea comenzii ferma / contract
3.	Documentatie de executie	
	Proiect de dezafectare si/sau de demolare pentru echipamentele existente	6 saptamani de lansarea comenzii ferma / contract
	Proiect de adaptare sau constructie fundatie noua	2 saptamani de la primirea documentatie de la furnizor echipament
	Proiect de adaptare si montaj legaturi conducte noi	4 saptamani de la primirea documentatie de la furnizor echipament
	Proiect de adaptare circuite electrice din statie distributie pana la noul echipament, inclusiv cu interconctarile cu sisteme de automatizare si protectie	6 saptamani de la primirea documentatie de la furnizor echipament
	Proiect de adaptare circuite AMC si ESD de la noul echipament la DCS existent, inclusiv cu interconectarile la sistem alimentare electric si configurare DCS.	8 saptamani de la primirea documentatie de la furnizor echipament
4.	Cerinte tehnice sau caiet de sarcini pentru contractor lucrari C+M pe toate disciplinele	10 saptamani de la primirea documentatie de la furnizor echipament
5.	Manuale si instrctiuni de operare pe faze tehnologice <ul style="list-style-type: none"> - Pregatire premergator punere in functiune - Punere in functiune - Operare normala - Intretinere si mentenanta regulata - Instructiuni oprire accidentala 	10 saptamani de la primirea documentatie de la furnizor echipament
5.	Documentatia completa de executie in forma finala As-Build.	2 saptamani de la PIF
