2x Bara pentru interfata Vogel's PFB3419, 1915 mm, negru

Bara de interfata PFB 3419 face parte din sistemul unic si flexibil, ideal pentru montarea de video-wall-uri si in-line menuboarding. Cu acest concept modular, bazat pe Connect-it, poti crea propria ta solutie de video-wall pentru aproape orice necesitate. Video-wall-ul este format din bare de interfata (PFB 34XX) si un set de benzi de interfata ajustabile multi-directionale (3D) pentru fiecare display. Vogel's ofera 3 lungimi diferite de bare de interfata care pot varia de la 1900 la 3300 mm si doua benzi diferite de interfata cu VESA 400 mm si 800 mm.

4x Bare verticale de prindere Vogel's PFS3504, VESA 400 mm, 80 kg, ajustabile 3D

Barele verticale ajustabile 3D pentru ecrane PFS3504 fac parte din sistemul unic si flexibil, ideal pentru setup-urile video-wall-urilor si tablele cu meniu in-line. Cu acest concept modular, bazat pe Connect-it, iti poti crea o solutie pentru peretele video potrivita fiecarei necesitati de set-up. Solutia pentru peretele video consta in barele pentru interfata (PFB 34xx) si un set de bare verticale multi-directionale (3D) si ajustabile pentru interfata de prindere (PFS 35xx) pentru fiecare ecran. Vogel's ofera lungimi

variate pentru barile de interfata si doua lungimi diferite de bare verticale cu fixare de 400 mm si 800 mm.

SUPPORT VIDEO WALL

PFS3504 sunt o pereche de bare verticale pentru ecran unice, ce pot fi ajustate in 3 directii (3D) pentru a obtine un look fara cusur. PFS3504 au o fixare verticala maxima de 400 mm si pot fi ajustate pe orizontal, in adancime si in inclinare. Odata ce ecranele sunt pozitionate, datorita serviciului pentru pozitionare, este foarte usor de a conecta si de a pozitiona. Pozitionarea permite, de asemenea, demontarea si montarea fara a avea nevoie de scara.
